Policy 08 - Credit Card and Fuel Card Policy

Introduction:

The Cañon City Area Metropolitan Recreation and Park District's credit cards are designed to purchase at Wal-Mart, Sam's, purchase out of town for office supplies. The cards do not change what you are approved to buy, only how it is paid for. The credit card is not intended to avoid or bypass appropriate purchasing procedures, but is to be used in accordance with the guidelines established within this policy. The Fuel Card is to be used exclusively for fueling District vehicles.

Who can obtain the cards?

Policy:

Only Full-Time employees or authorized permanent part-time and temporary or seasonal employees can have a credit card or use a credit card or be authorized to use a fuel card. If an employee with a card authorizes a temporary employee to use a card or use a fuel card, an authorized form must be completed by the supervisor and turned into the Executive Director. The cardholder is responsible for the security of the card. It will be assumed that any purchase made with the card will have been made by them and under the following guidelines.

Procedure:

The Executive Director will review all applications for any new credit cards and all part-time and temporary employees' use of current credit and fuel cards.

Lost or Stolen Card:

Policy:

You must immediately report to Administration any card that has been lost or stolen.

Procedure:

If you think your card or any card in your possession of the District's has been lost or stolen, notify the Executive Director or Finance Director as soon as possible.

The District's credit cards and fuel cards may be used to purchase only items that are for the same department whom you report to. Any credit card

purchases that require quotes, bids, or Supervisors and/or Board approval must still go through the process.

Use of any District cards for personal purchases or use is strictly prohibited. Any abuse will result in the loss of use of the card and disciplinary action, up to and including termination.

Policy 09 - Maintenance Policy for Griffin Park and the Trail System

A question which arises from time to time is why the District is or is not maintaining the Riverwalk trails or Griffin Park in a way many individuals may consider proper and necessary for a clean, neat, trail or park, or perhaps to preserve and maintain the area totally as it exists, for example, a wilderness area.

In 1988, the District contracted Urban Edges, Inc. to develop a master plan for Griffin Park. This master plan was developed in order to try to establish what direction and/or preservation the District should take for this park. There is some reference in the master plan to enhancing wildlife habitat in the grassland areas by cutting out trees along the perimeter of these areas to create more grassy fingers into the existing wooded areas. There is more general direction to maintain the natural character of areas identified as wooded, wetlands, grasslands, or dry bluff slopes in the park. The plan also details some general specifications with regard to trail widths, overhead clearance, etc.

The following is an outline of the amount and type of maintenance the District sees as appropriate for these areas.

Trails and Access Road Maintenance:

- a. Grade and/or resurface gravel or crusher-fines trail surfaces (8-10 ft. width) as needed to provide a smooth walking surface.

- b. Prune trees and shrubs growing over trail surfaces to maintain a minimum of 10 ft. overhead and side clearance, using accepted arboriculture practices
- c. Provide adequate drainage along trail barrow area and through cross culverts by grading and otherwise removing silt and debris from these structures as necessary.
- d. Mow grass and other herbaceous vegetation within the trail corridors (3-4 ft. either side of trail surface edge) where possible, to a height of six inches or less.
- e. Wash or sweep concrete trail surfaces (underpasses, etc.) as often as needed to maintain a clean neat appearance.
- f. During periods when trails are snow-covered, plow or compact walking areas and supply sand or other surface-applied, traction-enhancing materials in areas of heavy pedestrian traffic to assure safe footing. Accommodate cross-country skiers during these same times by providing, where possible, compacted ski tracks separate from hiker/pedestrian pathways within the trail corridor and provide signage designating these tracks and pathways to encourage separate use of same.

General Maintenance considerations:

- a. Removal of trash and litter should be performed at regular intervals to maintain a neat and clean appearance along trail corridors, picnic and rest areas, trailheads and parking areas.
- b. Pesticide use is discouraged, and should only be considered, for example, in such areas as mosquito control and poison ivy control around picnic and rest areas when no other options are reasonable.
- c. Graffiti and other types of defacing, vandalism or damage to improvements should be repaired or removed as promptly as is reasonable.

- d. Fire protection will be increased by mowing, as previously described, along trails and access roads. Fire protection measures will be taken such as wetting (watering with water trucks and portable irrigation sprinklers) vegetation along trails and other heavily used sites for such events as "Spook Trail Walks" or other similar events where risk of fire is high. The provision of fire extinguishers, water pumps and hoses at such control jurisdictions is recommended.

Preservation and Maintenance of Natural Areas:

- a. Natural areas identified in the Griffin Park master plan as wooded areas, grasslands, wetlands and dry bluff slopes shall be managed by practices which preserve the natural state of these areas as much as possible in accordance with the master plan. These areas should be protected from such disturbing practices as mowing, spraying, woodcutting or wood removal, or other similar practices which would destroy the natural character of these areas unless they are undertaken as part of the future development of the park proposed by the master plan.
- b. Any landscaping activities within the park shall include only those which compliment or enhance the present natural condition of the park, but the development of athletic fields or other, similar facilities, and use of the park for high impact sport activities, shall not be allowed.

Policy 16 - Permits and Concession Fees for Commercial Activities

Commercial users of District property and facilities gain a financial benefit from the investment and property of the taxpayers of the District. Therefore, in addition to Policy 10 (Rouse Park Rental) and Policy 12 (Community Room Rental), the District reserves the right to adopt policies and/or procedures that would require a permit and/or concession fee for any commercial activities taking place on District property or using District facilities. In order to obtain such a permit, park users must ensure that all necessary permits from the Fire District have been obtained and that they are otherwise in compliance with all applicable Fire District, City, County and State regulations and rules (including applicable fire restrictions and bans), and must execute a release of liability and indemnification agreement with the District. Park users must ensure that adequate fire protection measures are in place to prevent the spreading of fires.

This Policy shall not apply to District personnel, or volunteers authorized by the Executive Director, when conducting District business. This Policy shall not prohibit the District from providing a “community bonfire” when District staff determine such a program is in furtherance of the District’s community goals and is not otherwise prohibited by applicable fire bans or restrictions.
